ABINGDON AIR & COUNTRY SHOW

In May 2001, a small group of aviation enthusiasts organized a modest airshow at Abingdon Airfield. Twenty-four years later, on Saturday June 14th, 2025, we hosted the annual Abingdon Air & Country Show to coincide with the King's birthday celebrations.
For twenty-two of these 24 years, I have supported Neil Porter (Organiser) as either a committee member or as a volunteer. On at least two occasions RMARG (RWHS) supported this event.

I now present a selection of the most interesting aircraft from our shows.

All photos are from my personal collection.
